ERRATA LIST FOR KBK9G20

1 USB HOST PORTS 2/3 SUSCEPTIBLE TO EMI

Affected versions: 0.90 – 0.95
Impact:
During long USB transfers, the port may be reset by the
processor. This does not affect low-rate bulk devices like
keyboards and mice, but may degrade functionality on more
active links such as USB/Ethernet adapters. The issue has
not yet been identified on port 1.
Workaround: None
